RESELLER HOSTING – HOW IT WORKS PART I

You and your clients will get the following resources for each domain you set from your reseller control panel.

- *Unlimited Web Space*
- *Unlimited Bandwidth*
- *Unlimited Emails*
- *10 FTP*
- *10 Sub Domains*
- *Unlimited ODBC*
- *ASP, ASP. Net, PHP 5.0, Ajax Enabled*

- *MS Access*
- *2 MSSQL 2005*
- *5 MySQL*
- *Panel force control panel (Latest version)*

You will be paying as low as 0.75 paise per day per domain if you fund your reseller account with Rs.15000/-. Your per domain cost will be 0.95 paise per domain if you pay Rs.5000/- and open your reseller account.*

Whatever the amount you pay to us, whether it is 15000/- or 5000/- it will be credited into your reseller account which is fully usable. Once you set your domain then only the amount gets reduced from your account. For eg: if your account is funded with Rs.15000/- your per domain cost would be 0.75 paise per day per domain which sums to Rs.273.75 (0.75 x 365). If you set up one domain in your reseller account then your account will get Rs.273.75 reduced from 15000/- and balance Rs.14726.25 will remain in your account for future usage of funds.

** If you fund with Rs.15000/- else it will be 0.85 paise or 0.95 paise per day depending upon your initial amount. Please check out <http://www.onerupeehosting.com/reseller-hosting.asp> for more details.*

RESELLER HOSTING – HOW IT WORKS PART II

Though your domain resources are unlimited, you can restrict web space and other resources to your clients and you can setup your own margin for each domain from your reseller control panel.

Your reseller control panel takes care of billing module for you and for your clients as well. You can view full transaction details of your amount funded into your account.

It also takes care of renewal process for you as well as your resellers. It sends an auto email from your email address to your clients for renewal of the domain. Your clients can renew the domain from the control panel and same you can do as well. The following are some of the features of reseller control panel:

- *Unlimited Web space, bandwidth, emails*
- *Panel force Reseller Control Panel*
- *Panel force Client Control Panel*
- *Works like your prepaid mobile recharge*
- *Billing Module included*
- *You can create resellers under you and same as your clients.*
- *You can create your own billing slabs for your resellers and clients.*
- *You can create four custom packages.*
- *Full control on domain registrations*
- *Full control on domain hosting*
- *Though you have unlimited web space, you can restrict space and charge your clients accordingly.*
- *Setup your own brand name, and control panel*
- *And many more...*
